1879 d18 3rdr bust S3906A

This is excessively rare. The Sovereign Rarities Cat (formerly Spink) states:

'Uncertain to exist as normal coin or proof?'

Coincraft cat does not mention it and it is not listed in ESC

Only the top half of 8 of the die no can be seen the lower half has not been fully struck up

The coin is possibly a mule since the obv has a light tone and is of a prooflike appearance
